## 8 Ton DUAL PURPOSE DE-BULKING TRAILER

**Grain Transfer**

**Dual Purpose**

**Grain Transport**

The Dual-purpose De-bulking Trailer is the logistic link for grain transportation between the moving harvester and transport vehicles. During the time that the De-bulking Trailer receives, transports and transfers the grain, the harvester continues to work without interruptions, increasing harvesting productivity. It has the ability to de-bulk not only harvested crop, but also fertilizer with great efficiency. The vertical chute has a conveyor chain that moves the material up and into the Trailer.

STOCK CODE	017C02	017C03
LOAD CAPACITY (GRAIN)	5 TON	7 TON
LOAD CAPACITY (FERTILIZER)	6 TON	8 TON
MASS (EMPTY)	1 300kg	1 700kg
FLOTATION TYRE SIZE	12.0 - 18"	600 - 50 - 22.5"
TRACK WIDTH	2 200mm	2 200mm
PTO SPEED	540rpm	540rpm
REQUIRED POWER	50 - 65kW	55 - 70kW
DISCHARGE HEIGHT	3 200mm	3 200 - 4 700mm
DISCHARGE RATE	±1 TON / min	±1 TON / min
DIMENSIONS	2 700 x 2 450 x 2 400mm	2 700 x 2 450 x 2 900mm
