

SPREADERS

ALS 3000 MULTI-PURPOSE SPREADER (LIME BOX)

Direct Spreading

Effective Spreading

Adjustable Apertures

The BPI ALS 3000 Multi-purpose Spreader is efficient at spreading lime, gypsum, phosphate and fertilizer directly onto the ground. The BPI ALS 3000 Spreader is a tractor-drawn, wheel driven implement with adjustable apertures at the bottom of the hopper. It has no PTO drive or gears, is easy to use and low on maintenance costs. The tyres have an 8-ply radial construction and are suited for use on rough terrain.

STOCK CODE	ALS 3000
HOPPER CAPACITY	1 500m ³
NUMBER OF APERTURES	18
WORKING WIDTH	3m
SPREADING CAPACITY (PHOSPHATE)	110 - 3 400kg/ha
