

MOWERS

HEAVY DUTY SLASHER & WINDROWER

Heavy Duty

Extremely Robust

360° Blade-swing

The heavy duty Slasher has been designed for all grass-cutting, bush clearing and heavy slashing operations in tough conditions with the different models having cutting widths from 1.5 - 2m. These Slashers are available in normal and windrow models that are fitted with a heavy duty gearbox and heavy duty slip clutch PTO for additional machine protection. The machine works best with tractors rated from 35 - 70kW. The blade holder system allows the blade to swing 360°.
