

OFFSETS

MOFH SERIES (MEDIUM DUTY) - 65kg/DISC

Medium Duty

Mixing Residue

Adjustable Depth

The medium duty type Offset Disc Harrow is a trailed type on two wheels. This Offset is available in 18 and 24 discs with a working depth of 125 - 150mm. This machine has adjustable disc gangs and utilises an hydraulic system for transport and depth adjustment. Many different functions include: chopping and mixing residue left on the land after harvesting and weed control.
