

# DAM SCOOPS

## MECHANICAL DAM SCOOP

**Quick Filling**

**Easily Operated**

**Three-point Linkage**

Ruggedly constructed for rough terrain usage. Uses include: leveling lands, fields and roads, leveling of slopes and contours, repairing water damaged gravel roads, cleaning out farm dams and clearing of construction areas. This machine is mounted on the tractor's universal three-point linkage system. A quick filling bucket ensures fast removing of unwanted soil and silt, and is easily operated from the tractor driver's seat using a rope.
