

BALERS

MINI BALER

PTO Driven

Low Kilowatt

Compression Chamber

The Mini Baler has been developed for the smaller farmer and can be trailed by low kilowatt tractors. The Mini Baler comes with its own hydraulic pump and is driven by the tractor's PTO. If the tractor used, has its own hydraulic system, it enables the Baler to work faster and achieve higher production rates per day. The compression bale chamber and the wrapping and compression system consists of drive chains and cross bars and enables the packaging of all types of green or dry crop.

STOCK CODE	M70MB
NUMBER OF COMPACTING ROLLERS	8
NUMBER OF BALES PER HOUR	50 - 80
TOTAL LENGTH	1 350mm
TOTAL WIDTH	1 350mm
TOTAL HEIGHT	1 400mm
BALER PICK-UP	800mm
REQUIRED POWER	20 - 35kW
TOTAL WEIGHT	440kg
