

CROP SPRAYERS

MOUNTED CROP SPRAYER

Boom Sprayer

Plant Protection

Flat-Fan Nozzles

This mounted type 400ℓ, 600ℓ and 1 000ℓ Boom Sprayer is used to drive the pump for multi-purpose plant protection. Sprayers come fitted with flat-fan or conical nozzles on the booms. Spraying is essential after planting to control weeds, insects and diseases which can affect the health of plants like: wheat, barley, sorghum, corn, canola, cotton, sunflower and all vegetables crops etc. Boom Sprayers are ideal for plant protection applications such as herbicide, pesticide, fungicide etc.
