

HARVESTERS

POTATO LIFTER

Easily Operated

Maximum Efficiency

Outstanding Durability

The BPI OPS potato lifter is sturdy, durable, has high harvesting capacity and handles crops very gently. This is a good choice for a small to medium size potato farmer. The BPI OPS potato lifter has easy handling and is ideal for the harvesting of small and large areas. The slope of the digging and second web is easily adjustable. The sieving is utilised optimally and the potatoes are being placed harm free at the back of the machine.
