TCM ROTARY SLASHER

Medium Duty

Grass Cutting

Adjustable Height

The TCM series medium duty Slasher is designed for general grass-cutting and slashing work using a medium sized tractor (25 - 60kW), with the three models having cutting widths of 1.2m, 1.5m and 1.8m respectively. The TCM medium duty Slasher has an adjustable cutting height to give a clean cut finish in all conditions, a rear guard flap and front skirt for safe operation. All TCM medium duty Slashers are supplied with fully guarded PTO shafts and torque-limiting slip-clutches.
