SELF LEVELING BALE LOADER

Bale Loading

Bale Transfer

Three-point Linkage

The Self Leveling Bale Loader is designed for quick and easy loading and transfer of bales in fields or in barns alike. The compact design allows for easy storage and manoeuvrability in smaller spaces. The Loader is mounted on the universal three-point linkage system and is capable of lifting bales up to 500kg to a height of 3,2m. The upper brace is easily adjusted to level or slightly angle the fork on various tractors.

STOCK CODE	ABLF
LENGTH	3 900mm
LIFTING CAPACITY	500kg
HITCH TYPE	UNIVERSAL 3-POINT
LIFTING HEIGHT	3 200mm
REQUIRED POWER	50kW
	A smaller tractor can be used by adding additional nose weights
