

PLANTERS

VEGETABLE PNEUMATIC PLANTER

Fine seeds

Various Crops

High Performance

This series of Pneumatic Precision Planters have been developed to meet agricultural conditions and the competitive environment in which vegetable producers work in. The Pneumatic Precision Planter is designed for fine and small seeds. This high performance Planter is an ideal seed drill for vegetables and precision seeds such as parsley, lettuce, dill, celery, asparagus, eggplant, tomatoes, pepper, cucumber, gherkin, leeks, peas, soya beans and cabbage.
